FACTS AND OBSERVATIONS.

Social Call at Glencairn—W. J. Fell's Plant.

INTERVIEW WITH RAFTSMEN.

A Coal Mine, a Prosperous Merchant, Etc.

GLENCAIRN.

One mile beyond Natural Bridge is Glencairn.

Nick Fulk has lived here for six years, having moved from the Calabrese neighborhood in Wolfe county. He keeps the hotel of the station.

O. C. McCormick, of Spencer, Montgomery county, who has been a merchant at Rosslyn, for more than a year, has bought about 20 acres of land from C. C. Fulk and will at once begin the erection of a residence and store. We spent an hour, pleasantly, with the family on Thursday. The little daughter, Grace, recently had some teeth pulled and she appeared shy, fearing that I was a D. D., (doctor of dentistry.)

A new county road is being built from here to Campton.

C. W. Russell & Son are the merchants at the place at present. From Glencairn to Torrent, four miles, we footed it, with heavy overcoat, umbrellas, valises, leggings and overshoes. Enroute we met a gentleman from Ohio, in the employ of W. J. Fell. To him we introduced ourselves as a tramp printer, looking for a job.

We rested for a few minutes at Ridgewood Junction where W. J. Fell's road connects with the L. & E. He has recently opened up a large tract of timber land on Miller's Creek and built seven miles of railroad. He employs, along this line, about 250 persons, and is getting out much lumber, ties, staves etc.

By telephone to terminus of road, we placed an order for job work, bought a lunch at his store and resumed the tramp to

TORRENT.

Made social and business calls with friends at Campton and Hazel Green by telephone, and saw the trade at Torrent. Here we met James P. Bush who was loading a car with coal from a mine which he opened last fall, on the mountain, about one mile from Torrent. The mine is above the cliff and the coal of the peacock variety, is 3 ft. 2 in. thick. He sells it by the car load, delivered at Torrent, at 7½ cts. or 8 cts., in small quantities.

JACKSON.

Enroute to Jackson, many raftsmen probably sixty to seventy, boarded the train at St. Helens. We interviewed two and ascertained that the average daily wages is \$1 and board, that rafts are floated single as far as the forks of the river, three men to each raft; that here three rafts are frequently lashed into one and then five men take it to market. This accounted for the many turning back. On yesterday, (Wednesday) the raftsmen returning were more than to-day. We presented the advantages of the ADVOCATE to four and sold to two.

Our first subscriber was from Mad Dog in Leslie county, said that Democrats were scarce in his county, about seventy, and was pleased to get a Democratic paper. Other facts and observations could be given concerning them, but for the present we will close this communication with a short interview with a gentleman from Crockettville, who was on the train returning from St. Helens to his home on the Middle Fork of Kentucky river.

Ed Callahan is a conspicuous factor in the commercial enterprise of Breathitt county. He is only 36 years of age, and, we judge, has been quite successful. With a capital of about \$300—he began his business career.

Lake View Flower Store.

Opera House Building, LEXINGTON, KENTUCKY, Respectfully solicits your patronage. Floral Designs a specialty. All work is guaranteed.

For eleven years he has been a merchant at Crockettville; his stock of merchandise varies from \$6,000 to \$10,000. He buys salt, flour and corn in car load lots, and large quantities of other articles. He is an extensive dealer in lumber, ties and staves. During the past two months he has taken to market, 1,500,000 feet of lumber, 5,000 ties and some staves. For the production of this he has, for months, given employment to about thirty men, and while on the river, as high as one hundred.

He owns three farms: two of 300 acres each—of which one third of each is rich bottom land, and the other, of 800 acres of fine timber land.

He married Miss Spicer, thirteen years ago. Their two children, son and daughter, are attending college in Jackson.

We spent night and half day at Jackson, stopping at the Arlington. The only comments on Jackson now are three: The College has an electric light plant; the town or centerprising citizens should move for macadamized streets; and will, Jackson furnish a candidate for Congress?

It's Easy To Take

Thin, pale, anæmic girls need a fatty food to enrich their blood, give color to their cheeks and restore their health and strength. It is safe to say that they nearly all reject fat with their food.

SCOTT'S EMULSION OF COD LIVER OIL. WITH HYPOPHOSPHITES OF LIME & SODA

is exactly what they require; it not only gives them the important element (cod-liver oil) in a palatable and easily digested form, but also the hypophosphites which are so valuable in nervous disorders that usually accompany anæmia.

SCOTT'S EMULSION is a fatty food that is more easily digested than any other form of fat. A certain amount of flesh is necessary for health. You can get it in this way.

We have known persons to gain a pound a day while taking it.

M. B. Smith, Butternut, Mich., says, "DeWitt's Little Early Risers are the very best pills I ever used for constiveness, liver and bowel troubles."

For sale by F. C. DUERSON, Druggist.

Sam Estes, of the Levee neighborhood, killed a crane on his farm on last Thursday, that measured six feet from tip to tip, and was four feet eight inches tall—one of the largest ever killed in the county.

Too many people lose valuable time in experimenting with cough and cold cures. They should take Foley's Honey and Tar before it is too late.

Summer Coon.

Coon Box, Ky., March 26. MR. EDITOR OF THE ADVOCATE:

I wish a little information from you on sum law points as I am about to enter that line of business for a living. I have made up my mind after paying close attention to our flint lock lawyers that it is a much nicer and easier way of getting a little grub and clothes then tolling at the hatchett and saw business. I have already got a second hand plug hat of the olde forty nine stile I wore it on the street yesterday for the first time and sum of the people thought I wer "governor" taylor going to washington to see Bill and keep out of the murder job which tha bout to land on him at frankfort, of cource a man's actions is prey good evedence about his guilt or inienst. I am reading upon sum of that olde english Lawyer's works I for get his name tho I think it is blackrock or sumthing like that. I fude sum points in his vews of law that I can't pulverize sadifactorly to mv notion. In a case like this wee will say sepose mee and mr. moore get up a conspeary and sets our trigurs to rob a chicken roost and I keep mr moore in the front to do the dirty work by patting his back and he goes and gets the chickens on my say so while I keep hid and wate for him to divide with mee, would I be as guilty of the crime as mr moor, or not? Sepose sum one would say tha had herd mee say long before the roost wer tackel that we would get them, would it look to a man up a tree like I wer as deep in the mud as he wer in the mire? It dus look sum what scatering, as the roost had bin robbed jest as I remarked before hand. The Republicans is a heep better gesers then the democrats tha sed goebel would never be governor the demays can't gess worth a cent still tha work out some prey hard puzels if you give them a little time. What the matter is to dick's job won't work? Is it on the Jack chinn skem? The golden rule may shine, on other timber before long it is mity hard to keep guilt hid all the time from good people I have had sum experience of that myself I helped to steel a barrel of olde Taylor once and a detective got mee and flay he got mee tangled up in so many lies I concluded the shortest way out of the troble was to confes so I did and got two yers rest in the state psy factory and sene that I have bin more moderate in the buisness. Wel it begins to look like the summer job at frankfort is getting a little to clost on the boys from the mountains, so to save themselves tha are trying to shift the heaves: part of the load on a couple of coons. If it should land on a coon sum body prompted the job that wer wors then the executors, better not talk to mutch if you are guilty. Say eny thing you pleas except your pryers if you'er not guilty. My shingle will be hung out as a Summer Lawyer in a few days. I will be graguated culcated and sent forward to prosicute on eny combustable points pertaining to Blackrock's Laws. Well as I am going into the law buisness don't fail to give me a who at you're cases owing to how mutch stuff you put up will you're cas go if I handle it.

"THE KING FILTER!"

Patented January 2, 1900.

By far the most fruitful avenue for the elements of disease to enter the human economy is through the water we drink; and thousands upon thousands of our fellow-beings find untimely graves every year simply because of the gross negligence and inexcusable ignorance, failing to attend to this all-important matter. The ordinary filters put up all over the land being nothing more or less than hotbeds of disease and death, far worse than no filter at all, containing foul, stagnant, decomposing water, full of filth of all kinds that accumulate on the roofs of your houses to be carried into your cisterns to be used for drinking purposes.

A Look

into one of these modern death-traps after it has stood unemptied for weeks, and often months, would surely nauseate the strongest and convince the most incredulous that they were far better off if they had no filter. The most casual comparison of the

"KING"

with any other filter, would convince any reasonable person at once of its vast superiority, and show them that they could ill afford to purchase any other simply because it was cheap; for certainly the BEST is the cheapest where comfort, health and life are at stake. A little high when you remember that being an ANTI-FREEZER, you avoid the bursting of pipes and filters, which is the rule with all others on the market, and the necessary repairs. You will not fail to see at once that, besides being the only health-preserving filter made, it is also THE CHEAPEST FILTER MADE. Don't be deceived by the beautiful exterior of the filters offered you, or the cheap talk of the dealer when he says, "mine is much cheaper and about as good," but men and women of thought look into the filter and its merits, remembering the value of the health and lives of your loved ones. And ask yourselves, "can I afford to take the risk for the petty sum of a few dollars?" Be sure not to purchase before you examine the "THE KING," manufactured by the
